A quick route from notice → practise → speak

YOUR LEARNING MAP

Use the workbook in short, repeatable sessions.

You can work alone, with a tutor, or with a speaking partner. Choose one page at a time rather than trying to finish everything in one sitting.

1 Notice	2 Learn	3 Practise	4 Speak	5 Reflect
-------------	------------	---------------	------------	--------------

1 • Notice

Read the model language. Circle a phrase you could use this week.

2 • Learn

Say key phrases aloud. Focus on meaning before speed.

3 • Practise

Complete the guided task. Change one detail to make it yours.

4 • Speak

Use the role-play cards. Try once with notes, then once without.

Quick win

Aim for one useful phrase you can actually say in real life today. Small, repeated practice beats one long session.

VOCABULARY THAT DOES A JOB

Learn the phrase, then make it personal.

Tip: do not memorize isolated words only. Notice the whole phrase, the situation, and one example sentence.

Word / phrase	Meaning	Model sentence	Practice note
routine	the usual way you do things	A simple routine can make mornings easier.	Say it: roo-TEEN
priority	something more important than other things	My first priority is finishing the report.	Say it: pry-OR-uh-tee
reliable	able to be trusted	We need a reliable source.	Say it: ri-LY-uh-bul
adjust	to change something slightly	I adjusted my schedule.	Say it: uh-JUST
focus	to give attention to something	It is easier to focus in a quiet place.	Say it: FOH-kus
overwhelmed	feeling that there is too much to manage	She felt overwhelmed by the workload.	Say it: oh-ver-WHELMD

Speak it!

Choose three phrases. Say each one with a different detail: person, place, time or reason.

Conversation model

Notice how the speakers keep the exchange moving

A CONVERSATION YOU CAN BORROW

Read once for meaning. Read again aloud. Then swap one detail.

How was your week?

B

Busy, but manageable. I finally finished a task I'd been putting off.

A

Nice! What helped?

B

I made a short plan and focused on one priority at a time.

A

That makes sense. Do you feel less stressed now?

B

Definitely. I also made time for something I enjoy.

Notice & borrow

Underline one phrase that keeps the conversation moving (for example: "How about you?"). Write your own version below.

SHORT READING PRACTICE

**Read once for the main idea. Read again for details.
Then answer in your own words.**

A Better Morning

Maya used to check her phone as soon as she woke up. She often felt rushed before work. One Monday, she tried a different routine. She prepared her clothes the night before, put her phone away, and wrote three priorities on a small card. The change was simple, but her mornings became calmer. She still checked messages later; she simply stopped letting them decide how her morning began.

1. What is the main idea? 2. Which detail supports it? 3. Choose one word you want to remember.

The Shared Garden

A group of neighbors turned an unused piece of land into a small community garden. They divided the work, shared tools, and agreed on a watering schedule. At first, people had different ideas about what to grow. Instead of arguing, they tested a few plants and compared the results. The garden became useful not only for food, but also as a place where neighbors could meet.

1. What is the main idea? 2. Which detail supports it? 3. Choose one word you want to remember.

Learning in Small Steps

Daniel wanted to improve his English speaking, but long study sessions were difficult to maintain. He changed his plan. Each evening, he spent ten minutes reviewing useful phrases, five minutes reading aloud, and five minutes speaking about his day. After several weeks, he noticed that common phrases came more quickly. The short routine did not feel dramatic, but it was consistent.

1. What is the main idea? 2. Which detail supports it? 3. Choose one word you want to remember.

THE 3-LEVEL CHALLENGE

Repeat the same task three ways.

LEVEL 1 • Clear

Give a short answer using one target phrase.

LEVEL 2 • Natural

Add a reason, example or follow-up question.

LEVEL 3 • Flexible

Respond to an unexpected change or disagreement.

Your challenge prompt

GO
