A quick route from notice → practise → speak

YOUR LEARNING MAP

Use the workbook in short, repeatable sessions.

You can work alone, with a tutor, or with a speaking partner. Choose one page at a time rather than trying to finish everything in one sitting.

1 Notice	2 Learn	3 Practise	4 Speak	5 Reflect
-------------	------------	---------------	------------	--------------

1 • Notice

Read the model language. Circle a phrase you could use this week.

2 • Learn

Say key phrases aloud. Focus on meaning before speed.

3 • Practise

Complete the guided task. Change one detail to make it yours.

4 • Speak

Use the role-play cards. Try once with notes, then once without.

Quick win

Aim for one useful phrase you can actually say in real life today. Small, repeated practice beats one long session.

VOCABULARY THAT DOES A JOB

Learn the phrase, then make it personal.

Tip: do not memorize isolated words only. Notice the whole phrase, the situation, and one example sentence.

Word / phrase	Meaning	Model sentence	Practice note
follow up	contact someone again about an issue	I'll follow up tomorrow.	Professional action.
deadline	the latest time something should be finished	The deadline is Friday.	Project language.
clarify	make something easier to understand	Could you clarify the last point?	Useful in meetings.
on track	progressing as planned	The project is on track.	Status update.
concern	a worry or issue	I have one concern about the timeline.	Professional disagreement.
priority	the most important task	This is our top priority.	Planning.
touch base	briefly communicate	Let's touch base this afternoon.	Friendly professional phrase.
action item	a task agreed in a meeting	My action item is to update the report.	Meeting language.

Speak it!

Choose three phrases. Say each one with a different detail: person, place, time or reason.

Conversation model

Notice how the speakers keep the exchange moving

A CONVERSATION YOU CAN BORROW

Read once for meaning. Read again aloud. Then swap one detail.

A

Can you give me a quick update on the project?

B

Sure. We're on track overall, but I have one concern about the deadline.

A

What seems to be the issue?

B

The final data may arrive late. Could we revisit the timeline?

A

That makes sense. Let's discuss an alternative after this meeting.

B

Perfect. I'll follow up with a revised plan.

Notice & borrow

Underline one phrase that keeps the conversation moving (for example: "How about you?"). Write your own version below.
